## EDUCATION

### KIET Group of Institution

Bachelor of Technology in Computer Science and Engineering, SGPA: 8.1

Ghaziabad, Delhi NCR

August 2023 – Present

### Academic Global School

Class 11 and 12, CBSE Board, Percentage: 93.8%

Gorakhpur, Uttar Pradesh

March 2020 – March 2022

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, C, C++, SQL, Python

**Frameworks and Libraries:** React.js, TanStack Start, Next.js, Tailwind CSS, Node.js, Express.js, Django, DRF

**Databases:** MongoDB, MySQL, Firebase, PostgreSQL

**Tools and Technologies:** Docker, Git, GitHub, Nginx, Linux, Postman, Redux

## EXPERIENCE

### KubejenERP | SDE Intern

September 2024 – Present

- Worked on multiple modules using TanStack Start and DRF, implementing dynamic tables, forms, and responsive layouts to enhance user experience
- Implemented infinite scroll pagination for dropdowns and tables, reducing unnecessary data load by 40% and improving page responsiveness
- Optimized media handling by integrating AWS S3 for secure and scalable image storage, reducing load times by 30%

### TEAM ERP | Full Stack Developer Intern

June 2024 – October 2025

- Contributed to the development of TEAM ERP, an in-house college management system designed, developed, and maintained by students for over 8,000 users, working on 8+ core modules.
- Improved user experience and data flow by collaborating with a 10+ member development team.
- Participated in full software development lifecycle including SRS documentation, development, testing, and deployment phases

## PROJECTS

### Certifier | Bulk Certificate generator

[Github](#) | [Live Link](#)

- A bulk certificate generator that processes Excel/CSV files to generate 1,000+ personalized certificates within seconds using custom templates.
- Built a file management system with folder creation, file organization, deletion, and trash recovery features.
- Created a responsive React frontend with Redux state management and a Django REST API using Pillow for certificate rendering.

### KIET Website | Institutional Web Portal

[Github](#) | [Live Link](#)

- Designed and developed a modern, responsive Next.js website for KIET with improved UI/UX and structured information architecture.
- Implemented **Static Site Generation (SSG)** and **dynamic routing**, increasing performance by 40% and enhancing SEO.
- Optimized and deployed the platform to efficiently handle **3500+ daily visitors**, ensuring high availability and fast load times.

## ACHIEVEMENTS

- Qualified at the regional level in the Google Solution Challenge by building a project aligned with the UN Sustainable Development Goals.
- Secured 6th rank among 500+ contributors in IWOC 2024, successfully merging 20 pull requests across multiple open-source projects.
- Solved 150+ coding problems across multiple platforms and achieved a 1400+ rating 2 star on CodeChef. [Link](#)
